APPLICATION SERVICES

ERP - Ministry of Economy and Commerce

Business Objectives

- › Streamline processes within Ministry of Economy and Commerce to enhance efficiency and effectiveness
- › Manage business processes instead of business functions based on best-practices
- › Design a seamless interface to its customers, suppliers, and departments reporting to Ministry of Business and Trade.
- › Optimize Ministry of Economy and Commerce's global cash management. Ministry of Economy and Commerce can report, analyze, and allocate cash in real time, and establish in-house banks or payment centers.
- › Acquire and implement a fully integrated application system that will satisfy MBT's needs, delivering a fast deployment of a set of features tailored for government sector

malomatia's Role

malomatia has implemented the below business areas in order to achieve Ministry of Economy and Commerce objectives:

- › Develop Ministry of Economy and Commerce Roadmap for 5 years:
 - High-level business process analysis for Enterprise Resource Planning
 - Solution overview and future high level system integration diagram
 - Oracle e-business suite module roadmap
- › Finance: general ledger and budget, account payable, account receivables, fixed assets and cash management
- › Procurement purchasing and inventory
- › Human Capital: core human resources, payroll and self-services
- › Reporting: For all tracks
- › Post implementation support: on-site support ready for going live

Results Achieved

malomatia started the Enterprise Resource Planning implementation for Ministry of Economy and Commerce in July 2011 and we went live in Jan 2012; main achievements were:

- › Reduced transaction costs & Increased quality and consistency of data
- › Provide performance management capabilities
- › Achieve faster closes, streamline consolidation, process scheduling, and workflow
- › Improve corporate performance, by enabling Ministry of Business and Trade to quickly read, evaluate, and respond to changing business conditions with effective business strategies
- › Improve financial and managerial reporting giving Ministry of Business and Trade the flexibility to report performance by business unit, organization, or cost-center.
